Certificate holder: Maxim Integrated

Platform designation: ZENO,
Hardware version MAX79356, Firmware version 11.0.2

Certification date: April 2nd, 2015

This certificate indicates the above mentioned platform successfully completed certification testing with regards to the reference specification ITU G.9903 (02-2014) plus the changes listed in the annex to this certificate. The optional feature coherent mode of the G3-PLC protocol is also covered by this certification.

The certificate applies to certification profile FCC Multipurpose Worldwide and the device was configured as a PAN-Coordinator.

Test cases have been performed as described in the test report referred to below. This certificate is granted on account of tests conducted by TÜV Rheinland in Yokohama, Japan in March 2015. The results and remarks can be found in the complete test report.

| Applied tests | Performed by | Document evidence |
|------------------------------------------------------------------------------------------------------------|------------------------|-----------------------------|
| Conformance and interoperability testing according to the test specification referenced by the test report | TÜV Rheinland Japan | Test report # 5002 5810 001 |

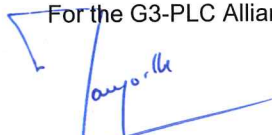

The device tested is a G3-PLC platform: a solution providing an implementation of the G3-PLC specification. This certificate is valid from April 2nd, 2015.

The certificate is only applicable to the platform described above and permits the use of the G3-PLC™ logo as laid down in the G3-PLC logo license agreement. The certificate may only be reproduced in full.

This certificate does not imply assessment of the production. This certificate shall not be defined, or used as a guarantee covering quality of a product which includes G3-PLC.
