

## **G3-PLC solution for the Indian Smart Grid System** providing an alternative to RF communications for the last mile networks

**ANCHUNATH R**  
CEO, Director  
NEONA EMBEDDED LABZ

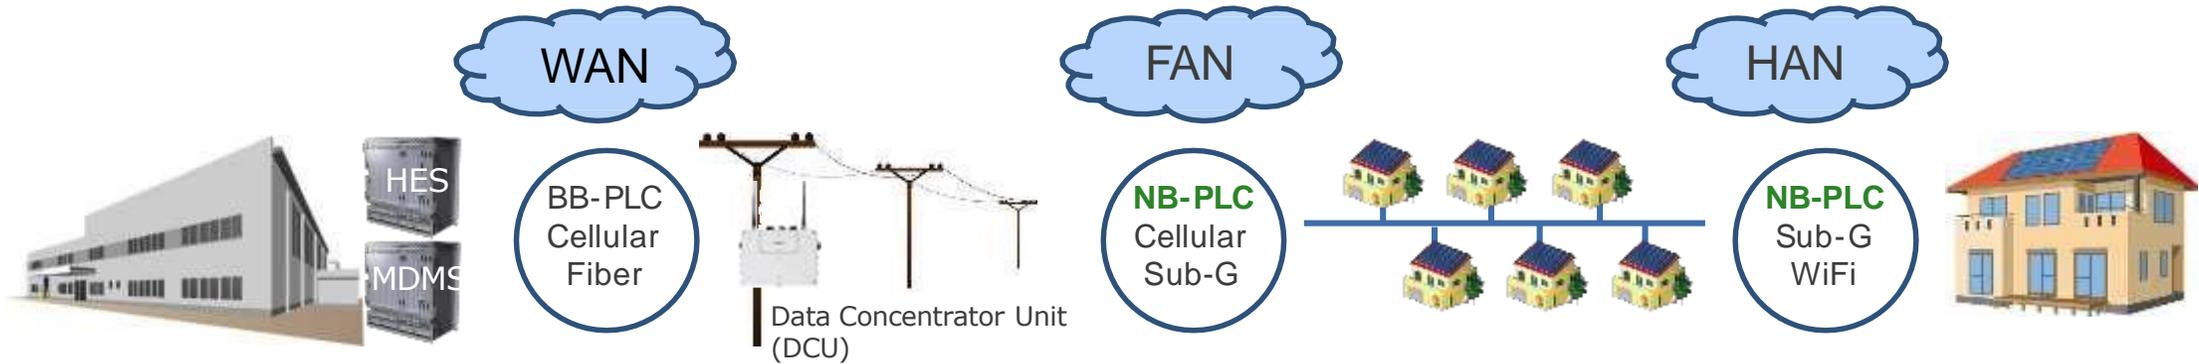

### **AMI, Communications and Advanced Analytics**

14th March 2019

# NB-PLC Technology in Smart Metering Systems

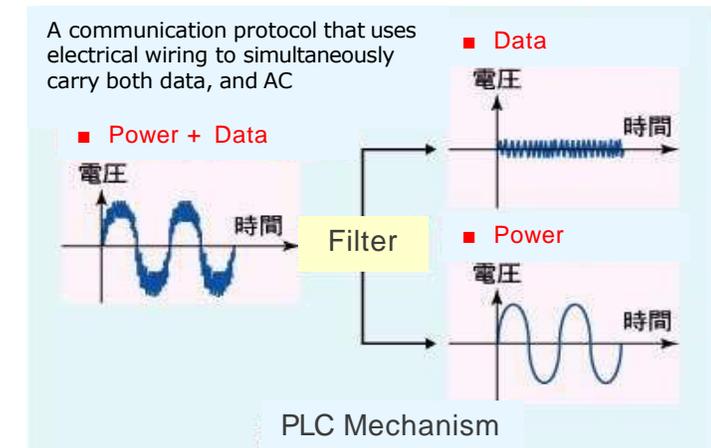

Narrow-band PLC to provide essential solutions in last mile networks

## ■ Communication technologies usage

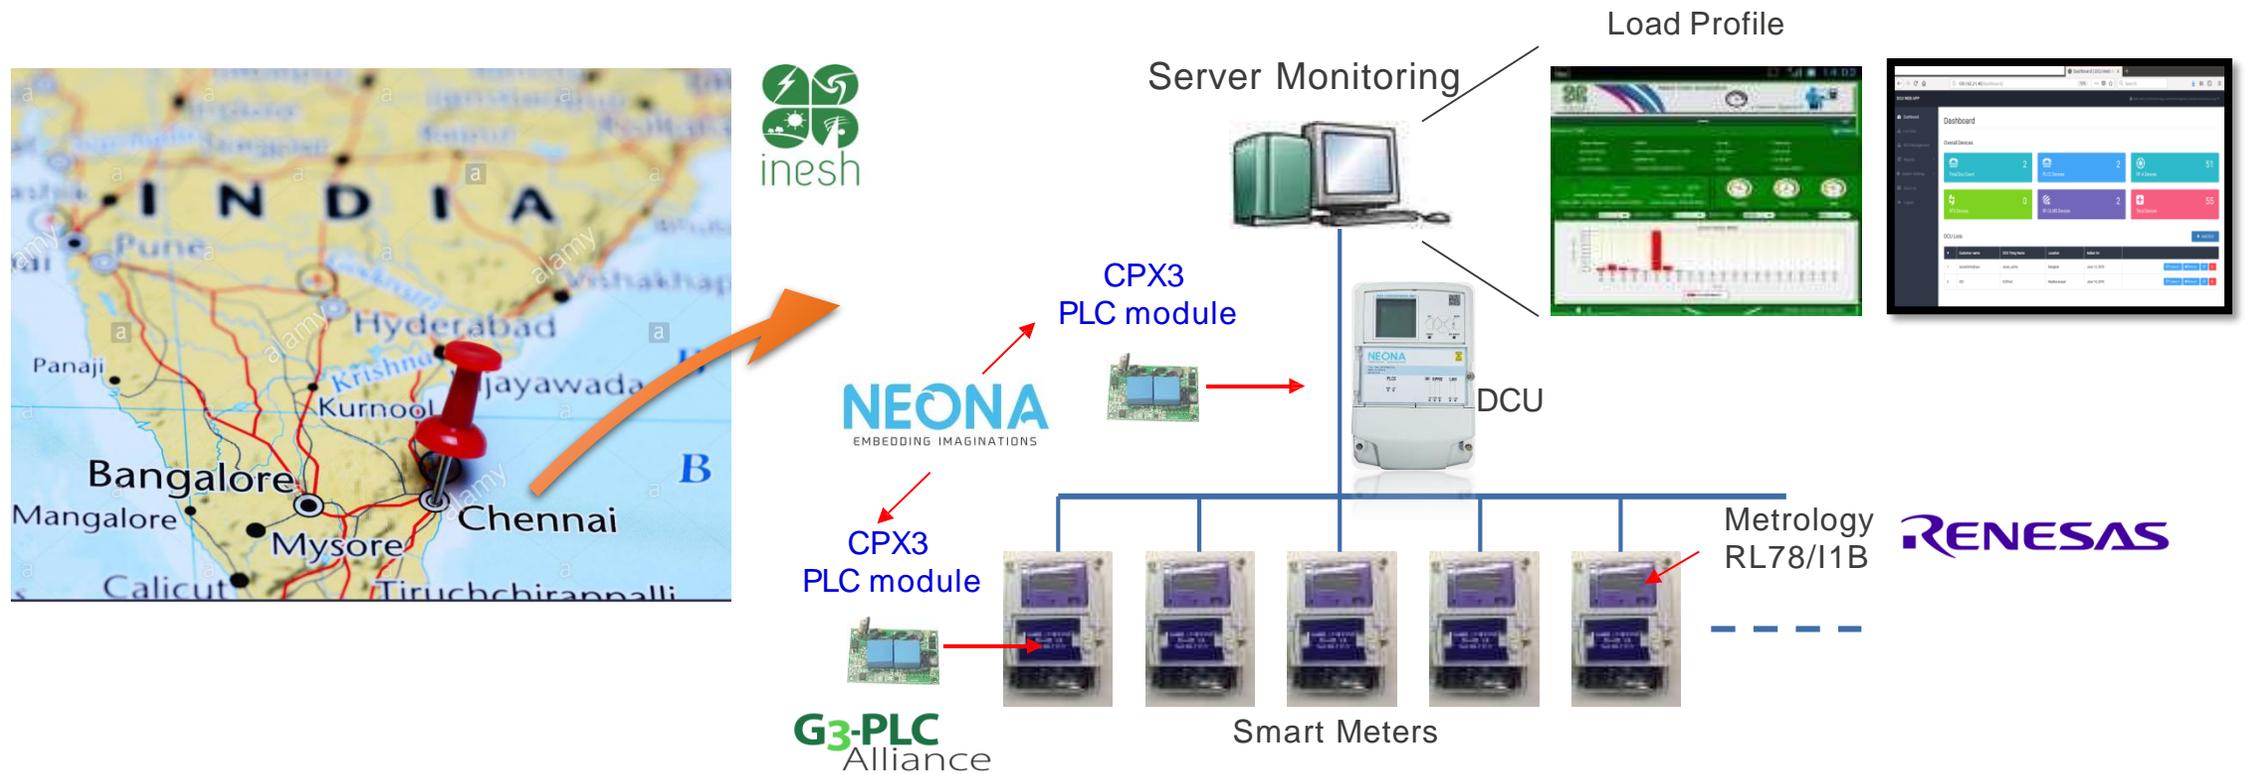

## ■ Advantages of NB-PLC

- Minimal infrastructure cost:
  - PLC is the transmission of data using existing power cables
- Wireless is limited for rural areas and in-building communications
- Realizing broadcast communications
- Interoperable communications

# G3-PLC Smart Meter Field Test in Chennai, India

Inesh (Indian IDH) carried out field tests in cooperation with an electric power company

## READY PRODUCT/SOLUTION

End-to-end Integrated Smart Grid Suite with intelligent IoT platform

**RENESAS**

### NB-PLC - CPX3 based module

- Data Rate - 300 kbps
- OFDM ( Multi-Carrier )
- 2 Layer of FEC
- AES128
- Topology - Mesh
- IPv6 Compliant
- Robust Mode

**G3-PLC**  
Alliance

### Data Concentrator Unit ( DCU )

- BUILD in DLMS Client
- Manage > 500 PLC Meter nodes
- Meter data is stored >180 days
- MDAS / Cloud Interfaces: -
  - 3G/4G/HSPA+ / GSM / GPRS, 10/100 Ethernet
  - HTTP / MQTT Interface
- Processor / Controller

- Linux 4.9 Kernel based System
- ARM Cortex A9 @ 400MHz
- SD – RAM - 128 MB
- eMMC FLASH - 1GB (Expandable)
- NOR FLASH - 64 MB (Expandable)
- Internal Local Server on Java

**NEONA**  
EMBEDDING IMAGINATIONS

### (MDAS/MDMS) for AMR and AMI

- Meter Data Management
- Meter tamper / Events Alerts
- Reporting
- Calculate Billing
- Profiling
- GIS
- Load Management

# Renesas Cool Phoenix 3 Market Results and Usage

Electricity meters

HEMS controller

LED Street Lighting

Factory Energy Management System (FEMS)

Lighting system in BEMS

Heating, Ventilation, and Air Conditioning system \* (HVAC)

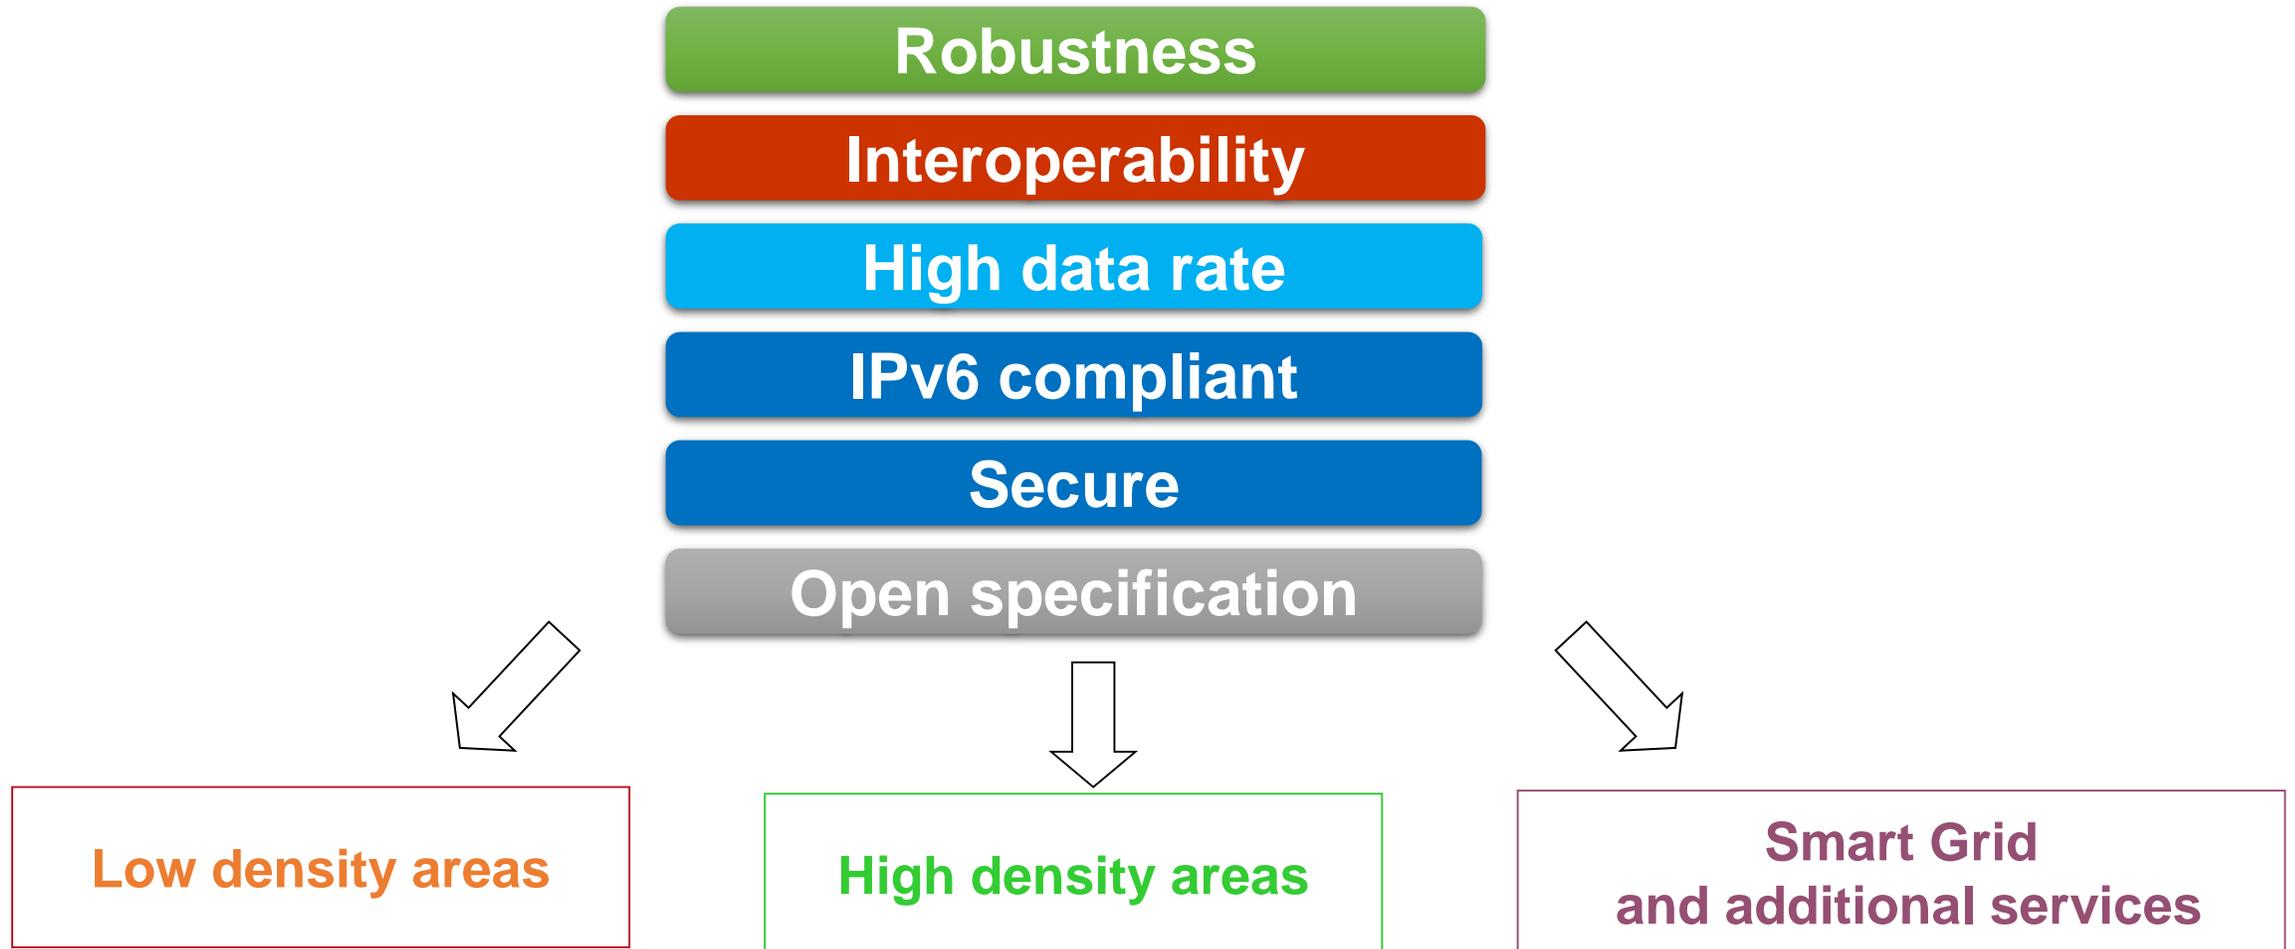

Voice over PLC \*

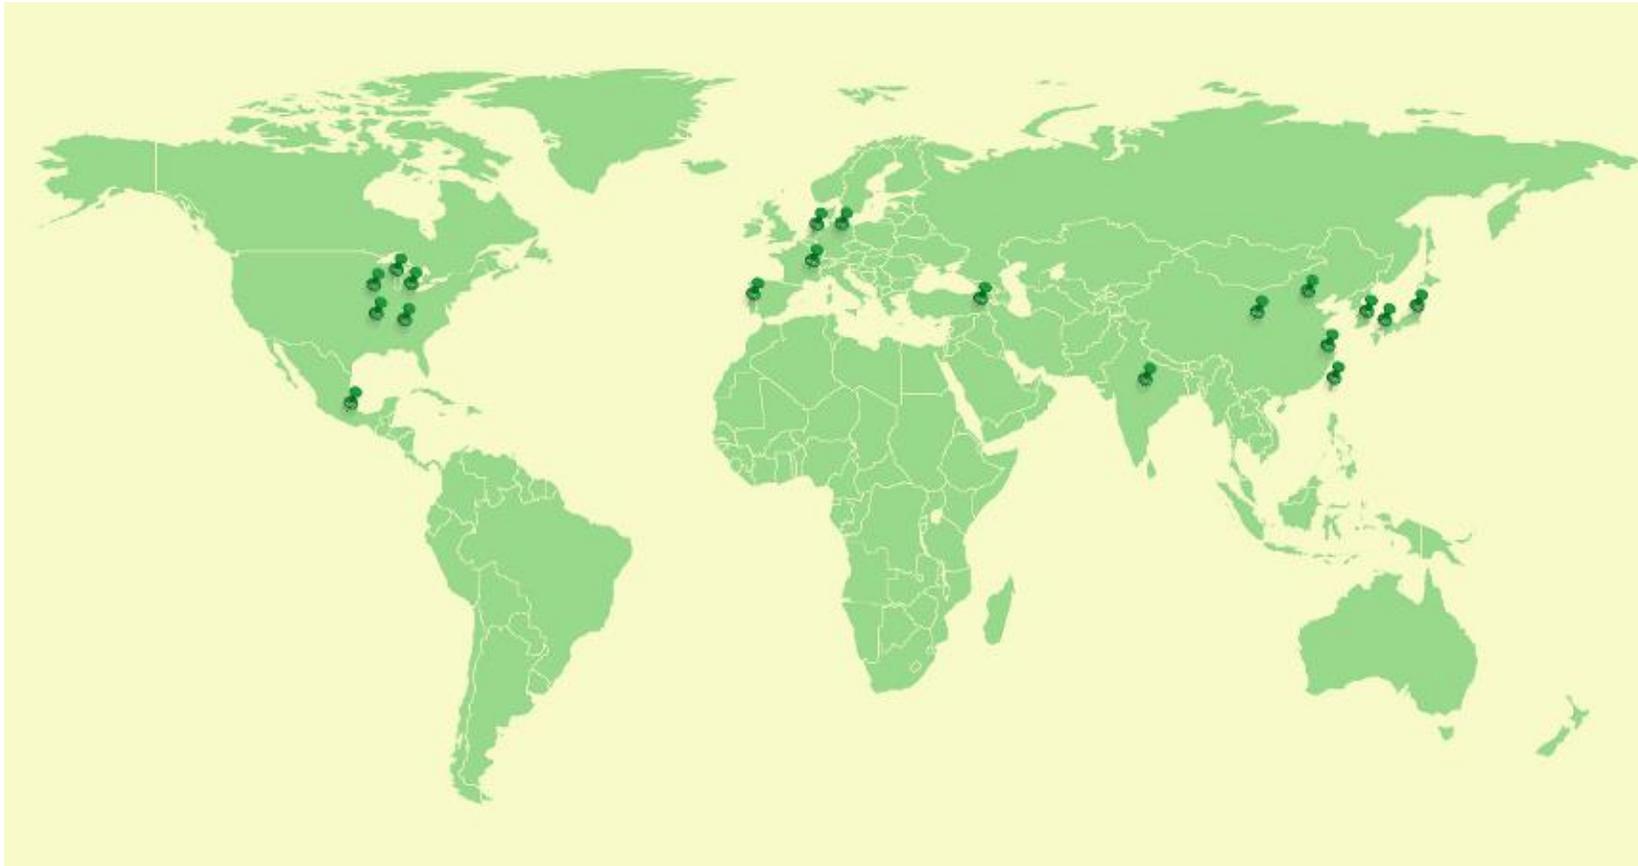

\* Using for CPX3 for DC communication instead of private lines

## G3-PLC - A Global Solution

with Renesas as our partner

## G3-PLC Meters Global Field Rollouts taking the lead in smart meter markets

G3-PLC available worldwide  
Frequency bands:  
CENELEC A, B  
FCC  
ARIB

Many rollouts  
Further trials ongoing

## KEY RECOMMENDATIONS

1. Related customers to propose G3-PLC pilot to Indian Utilities

**Renesas & Neona  
can support all end to end  
Solutions for your cost  
effective pilot**

2. Street light projects using G3-PLC

3. Smart charging stations combined connected through G3-PLC

Questions and Answer from Audience

***THANK YOU!***
