March 2024

General Assembly meeting online on April 8th

The next General Assembly for the members of the G3-Alliance
will take place online on Monday,

April 8th from 10 AM to 12 PM CET.

The agenda for this session will include approval of the 2023 financial report and the presentation of the budget for the fiscal year 2024. Additionally, we will provide updates on the Alliance's progress, the Technical Roadmap, and our ongoing marketing activities.

If you want to share something about your G3 projects and something else that might be interesting for the members, just let us know!

Save the date in your agenda and please confirm your participation by registering for the webinar.

G3 Attributes Configuration tool now available online

We are excited to inform you that we now have an Attributes Configuration Tool available online for members of the Alliance. This tool is a user-friendly platform designed to simplify the configuration of G3-PLC and G3-Hybrid stacks, ensuring that the settings align seamlessly with our guidelines. It has been built based on the Attributes Usage Guideline which was developed earlier in the Technical Working Group of the G3-Alliance. The tool is accessible on the G3 website [here](#)

You need to log in to the G3 website. In case you do not have a login, send an email to generalsecretary@g3-alliance.com and we will create one for you.

In the next version of the tool, we will also include a download function so you can download the recommended values for the G3 attributes based on your specific input. We greatly appreciate your feedback! So please let us know your suggestions/remarks so we can take that into account in the next version of the tool.

News / Events

DISTRIBUTECH International

The G3-Alliance participated in Distributech in Orlando last February from the 27th to 29th, where several of our members were also present and promoting our innovative G3-Hybrid RF Mesh Communication for the smartest grids and cities.

India Smart Utility Week 2023

From March 12th to 16th, we participated in the India Smart Utility Week in Delhi. Our innovative G3-Hybrid technology, adept at dynamically harnessing the best of both PLC and RF technologies, proved to be particularly suitable for the Indian Smart grid market's harsh conditions.

Upcoming Events

Enlit Africa

21-23 MAY 2024

CAPE TOWN, SOUTH AFRICA

Enlit Africa is where the most influential energy companies come together to drive opportunity. The conference is widely regarded as the critical business event of the year. This is where the 'who's who' of the sector gather to exchange new ideas and form business relationships that fuel innovation and opportunity.

IEEE Smart Grids Conference

17-20 SEPTEMBER 2024

OSLO, NORWAY

The 15th IEEE International Conference aims to provide a forum for researchers and practitioners from academia, industry, government institutions, and regulators to exchange ideas, explore enabling technologies and share experiences.

Enlit Asia

08-10 OCTOBER 2024

Kuala Lumpur, MALAYSIA

Enlit Asia represents the convergence of two pivotal events in the power and energy sector – POWERGEN Asia and Asian Utility Week. We invite you to join us from October 8th to 10th, 2024, in Kuala Lumpur, Malaysia, to present our innovative G3-Hybrid technology.

Enlit Europe

22-24 OCTOBER 2024

MILAN, ITALY

Join us on 22-24 October 2024 at Fiera Milano di Rho in Milan, Italy, on our

journey to Connect industries, Inspire action and help Europe Evolve into one decarbonised and digitalised energy system for the energy transition.

G3-Alliance

34 place des Corolles, Paris
France
