

# G3-Alliance

## Newsletter September 2024

Dear Members and Friends of the G3-Alliance,

This year marks a significant milestone for the G3-Alliance as we proudly celebrate 10 years of G3 certification! In this newsletter, you'll find an article showcasing our key achievements in certification and the valuable benefits it offers to DSOs.

As we look ahead, we're excited to be participating in several events across Europe and Asia in the coming months, and we look forward to connecting with many of you. Additionally, we invite you to join us at our General Assembly meeting this October, where we'll celebrate the 10th anniversary of our certification program and discuss the exciting future of G3-Alliance, including new developments and the continued expansion of our technology.

We hope to see you there!

Warm regards,

Leon Vergeer

G3-Alliance General Secretary

### General Assembly Meeting

The next General Assembly for the members of the G3-Alliance will take place during Enlit Europe in Milan on Tuesday October 22<sup>nd</sup> from 5pm. All members will soon receive the invitation by email with all the details about the event.

The agenda will include approval of the 2025 budget, an update on the technical roadmap for G3 and presentations from members highlighting various implementations and applications of G3 technologies.

If you would like to share updates on your G3 projects or any other information you believe may interest the members, please feel free to email us at [generalsecretary@g3-alliance.com](mailto:generalsecretary@g3-alliance.com) !

# 10 Years of G3-Alliance Certification

The 10th anniversary of the G3-Alliance certification marks an important milestone in our journey to promote interoperability and quality assurance in smart grid technologies. Since the launch of the program in 2014, we have certified over 600 devices, ensuring that products from multiple vendors work seamlessly together. This achievement is a testament to the dedication of our members and the utility partners who trust G3-certified products to power their smart metering and grid management initiatives.

Please read our article published in Smart Energy International.

## G3-Alliance Attributes Configuration Tool New Functionality

Earlier this year we launched the online Attributes Configuration Tool for members of the Alliance. This tool is a user-friendly platform designed to simplify the configuration of G3-PLC and G3-Hybrid stacks, ensuring that the settings align seamlessly with our guidelines.

Many members already used the tool and we have now added the possibility to download the recommended values for the G3 attributes based on your specific input. If you have not done so yet, make sure to test the tool on the G3 website [here](#). You need to log in to the G3 website. In case you do not have a login, send an email to [generalsecretary@g3-alliance.com](mailto:generalsecretary@g3-alliance.com) and we will create one for you.

## Large tender in Croatia!

Hrvatska Elektroprivreda has launched an €86.5M tender for G3-PLC smart meters in Croatia! The project aims to upgrade 2.5 million metering points by 2029, building on the success of 700,000 deployed G3-PLC meters.

## Enlit Africa 2024

From May 21st to 23rd, we participated in Enlit Africa in Cape Town, engaging in productive discussions on the African smart grid and G3 technologies. It was a great opportunity to connect with industry experts and explore smart grid solutions.

## Upcoming Events

### IEEE Smart Grids Conference

17-20 SEPTEMBER 2024  
OSLO, NORWAY

The 15th IEEE International Conference aims to provide a forum for researchers and practitioners from academia, industry, government institutions, and regulators to exchange ideas, explore enabling technologies and share experiences.

Enlit Asia

08-10 OCTOBER 2024

Kuala Lumpur, MALAYSIA

Enlit Asia represents the convergence of two pivotal events in the power and energy sector – POWERGEN Asia and Asian Utility Week. We invite you to join us from October 8th to 10th, 2024, in Kuala Lumpur, Malaysia, to present our innovative G3-Hybrid technology.

Enlit Europe

22-24 OCTOBER 2024

MILAN, ITALY

Join us on 22-24 October 2024 at Fiera Milano di Rho in Milan, Italy, on our journey to Connect industries, Inspire action and help Europe Evolve into one decarbonised and digitalised energy system for the energy transition.
